

RECT²⁵ CHMSL

Self-contained,
shrouded rear deck unit
that keeps the light
where it belongs.

RECT-25-CHMSL

Rear Window Deck Mount

The TOMAR RECT-25-CHMSL self-contained rear window deck mount fits seamlessly around the vehicle's CHMSL light and hugs the contour of the rear window. Designed for the Crown Victoria this stylish light unit can be used on the Charger and Impala with only slight modifications to the shape of the shroud. The RECT-25-CHMSL provides a clean "factory equipment" look and eliminates distracting reflected light often produced by unshielded lighthead.

The RECT-25-CHMSL contains two synchronized RECT-25 lighthead that can be externally synchronized with up to eight additional lighthead. Tomar's RECT-25-CHMSL is available with 6, 9, or 12 ultra-high intensity LEDs.
